

Tools

Snip Product Features:

Longest Lasting -

Blades are austemper heat treated producing a hardened cutting edge that outlasts all others.

Strongest Blades -

Hot drop-forged molybdenum alloy steel blades are virtually unbreakable and provide long-lasting edge life.

Heavy Duty Spring -

Unbreakable double overwind spring is guaranteed forever.

Stays Adjusted -

Grade-8 hardened center pivot bolt threaded into back blade maintains adjustment for optimum cutting.

Easiest To Use -

Full length pinch to point cuts up to 18 gauge CRSM or 22 gauge SSSM, with less than 80 lbs. (36 Kg) of hand pressure.

Easiest To Grip & Close -

Ergonomically optimum 5.5" (140 mm) handle opening.
